UNION OIL CO. NEGOTIATING FOR DISTRIBUTION LOCATION IN EDMONTON

May be Move to Start Development in Alberta

This week negotiations are being considered with the City of Edmonton for a site by the Union Oil Co. of Canada. This company we are advised intend erecting a storage and distribution plant to cost \$50,000.00 capable of storing 100,000 gallons of oil and gasoline. For the present the supply of oil and gasoline will be shipped from Vancouver where the company has a new refinery capable of refining 12,000 barrels of oil per day. The Union Oil Co. has enjoyed an extensive business along the western coast for some time and their entry in the Alberta territory will it is hoped be the means of the erection of a refinery at an early date, for the handling of crude oil from some of the Alberta Wells. The company has arranged for the erection of a similar distribution plant at Calgary from which point the distribution of their product will be handled for the southern part of the province.

Work Progressing at the Local Wells

Drilling at the western consolidated well, north of Wainwright is being diligently pushed along with the standard tools. Some interesting results should be looked for at an early date from this week.

At B. P. No. 6 the derrick has been completed and the rotary rig should soon be on its way to the oil sands that were encountered in No. three well. only a short distance from the new location.

Interior Oil Co Hold Annual Meeting

The shareholders of the Interior Oil Co. held their annual meeting at Wainwright last Friday night when new directors were elected and the season's drilling program discussed. We understand driller Bearesford is waiting the arrival of some new tools when he will be pounding down in the well started last summer by the Wainwright Oil Producers. which company has taken over by the Interior.

At the Maple Leaf Camp the men are busy moving the machinery from derrick No. one to derrick No. two where the company has decided to drill to a lower depth than in number one well.

Irma Company Making Good Progress

The crew at the Irma Oil Development well west of Irma are making good progress. Several streaks of hard formation have been encountered requiring the frequent changing of bits. Some coal and considerable gas showings have been encountered and directors of the company are encouraged of their chance of securing a successful well.

SHERLOCK LADIES CLUB

The ladies of the Sherlock Lake School District held a meeting last Wednesday afternoon at the home of Mrs. A. Gabrielson and decided to form a club in connection with the opening of the new school. They intend hold a social evening and dance on Friday evening June 26th in the new school and we presume that this will take the part of a formal opening. It is proposed to auc-will go towards improvements for the interior of the school-house. Ladies are asked to please bring baskets. Full details will appear in a later issue, but please note the date June 26th (Friday) and keep it open for this event.

I. E. Collette is agent for the famous Chevrolet cars.

WHEAT POOL NOTICE

The local Wheat Pool Association will hold a meeting in Chauvin at 2.00 o'clock Thursday afternoon June 11th. Instruction will be given to delegates to annual meeting. A good attendance is requested.

LEALHOLME U.F.A.

The Lealholme U. F. A. will hold a meeting in the Prosperity School at 8 o'clock Thursday evening June 11th. The twine question and other important matters will be discussed. A good attendance is requested.

Why Pay more? Look at Saker's ad and don't pay more than these prices no matter where you place your business.

DEATH AND FUNERAL OF MR. FRED BURTON

Frederick Burton passed away Friday: May 29th: at the age of 23 years, 5 months and 14 days. It is with deepest sympathy we record the death of Frederick Burton, only son of Mr. and Mrs. George Burton of Ribstone. The deceased, who lived in Ribstone was taken sick with violent pains in the abdomen during Sunday afternoon, May 24th. Dr. Ternan of Chauvin was called in on Monday, and Tuesday as his condition grew worse, his father deemed it wise to take him to Edmonton to the Royal Alexandra hospital, where he was operated on for appendicitis the following day. The doctors gave every hope of his recovery, but on Friday morning at 5 o'clock there was a marked change, he rapidly grew worse and at 7.15 a.m. he passed away.

The deceased was born at Gilbert Plains, Manitoba on December 15th 1901 and came with his parents to Ribstone Alberta whilst quite a small lad, and has lived in this neighbourhood ever since; was well known and greatly respected and loved by one and all.

He was married to Miss Gladys Dallyn second daughter of Mr. and Mrs. Ambrose Dallyn of Ribstone on December the 12th 1923 in the latter Day Saints church of which they were both members. The deceased leaves to mourn his loss, his young wife, father and mother, and 4 sisters grandfather and grandmother, Mr. and Mrs. T. Smith of Ribstone, and numerous relatives and friends.

The funeral took place on Sunday afternoon, May 31st, in the Ribstone cemetery. A very impressive service was held in the latter Day Saints church, the building being filled to capacity and numbers left outside. The hymns by the choir were beautifully rendered, and the sermon delivered by Elder J. R. Beckley was most inspiring. The floral tributes were indeed magnificent and numerous being upwards of twenty wreaths, sprays and crosses.

"TH ALASKAN"

A famous Forty Paramount Picture!—and the first of its kind Meighan has ever attempted. At Chauvin next Monday and Edgerton next Tuesday.

ST. ANDREWS SOCIETY

A meeting of St. Andrew's Society will be held in A. E. Keith's office on Saturday, June 13th at 1 o'clock p.m.

AIRLIE PICNIC

Don't forget Airlie picnic and dance on June 17th. Keep this date open and come and have a good time.

DEATH AND FUNERAL OF MRS. E. F. HAWKEN

The Sulphur Springs district mourns the death of one of its pioneer ladies, Mrs. E. F. Hawken having died at the age of 46, on Tuesday, May 26. The deceased has been in a poor state of health this spring, but her death was not expected.

The funeral service was held at the home on Thursday, May 28, Rev. J. Pengelly of Provost officiating. There were present a large number of friends who wished to pay their final respects to the deceased, and many were the floral tributes laid upon the casket. After a most impressive service the cortege wended its way to the provost cemetery, where the body was interred.

Mrs. Hawken came to Sulphur Springs in 1911, and has earned the love and respect of the neighborhood. Her husband, two sons (Ernest and Thomas) and four daughters (Dorothy, Ena, Edna, and Rgnes), are left to mourn her loss.

CHAUVIN VILLAGE COUNCIL MEETING

A meeting of the Chauvin Village council was held in the office of Mr. H. N. Freeman, secretary, Tuesday June 2nd.

Present: A. E. Keith, reeve; D. W. Parcels and A. Herbert.

The minutes of the last meeting were read and adopted. It was moved and passed that in regard to the petition for an early-closing bylaw that the same be duly advertised in the Chauvin Chronicle in accordance with the act. regarding same.

A letter from the Dept of Public Works was read notify the council that it was not intended to remove the meridian bridge on the Battle river from the district, but only to a more satisfactory site in its present vicinity.

Council then adjourned.

LOCAL DELEGATES AT- TEND W I. CONVENTION

Mrs. M. McCrea, convenor for the Wainwright constituency, was in attendance at the provincial convention of the Women's Institute, held in Edmonton, at the University from May 26 to 29th. Mrs. Blair represented Ribstone, Mrs. Horton, Edgerton; and Mrs. Welch and Mrs. Knowles, Wainwright.

There was a good attendance, upwards of 200 delegates being present. Mrs. Hynck, of Strome, formerly district director for No. 3, was elected provincial president for the following two years; and Mrs. Montgomery of Wetaskiwin was elected district director for No. 3.

Every man should be a hero at least once in his career for the sake of his grandchildren, if for no other reason.

EDGERTON AGRICULTURAL SOCIETY DIRECTORS MTG.

A meeting of the directors of the Edgerton Agricultural Society was held Saturday, May 23rd. the following directors were present:

President L. F. Byrnes. Tom. Bazley. Robert Watson. N. Davidson, James Taylor.

Davidson—Bazley, that minutes of directors meeting held May 2nd be adopted as read. Crd Bazley—Watson, That the revised prize list as submitted by committee Davidson and Taylor be adopted. Carried.

Davidson—Bazley, that the choosing of director to be in charge of the different sections in prize list be left with the secretary. Also the necessary work in connection with getting the prize list printed. Carried

Bazley—Watson, That the secretary have 250 copies of prize list printed by Chauvin Chronicle. Carried.

Taylor—Davidson, That the president Mr Byrnes be appointed to work in conjunction with the Edgerton Sports Committee in doing some work on the race track. Carried.

The meeting then adjourned to meet at the call of the secretary.

SPECIAL MEETING CHAUVIN SCHOOL BOARD

A special meeting of the trustees of Chauvin S. D. was held in the school house at eight o'clock p.m.

In the absence of Mr. Pitman, Mr. Fahner took the chair.

Present. Mrs. Saul and Mr. Fahner.

The business being to appoint a Secretary-Treasurer in the absence of Mr. Saul.

Mr. Fahner moved, Mrs. Saul seconded that Miss Elsie McCluskey be appointed Sec'y-Treas. "pro-tem" Carried.

The following accounts were presented and ordered paid on motion Mrs. Saul—Mr. Fahner. Carried:

GOITRE AMONG LAMBS
CURED AT THE SCOTT
EXPERIMENTAL STATION

Some losses of lambs have been caused by goitre. However, this has been controlled by feeding potassium iodide dissolving it in water mixed with dry salt. Two per cent potassium iodide in the salt has been found to be a successful preventive, but as the potassium iodide is rather expensive, further work is being done in attempting to find the minimum quantity which may be used with success.

During the winter of 1923-24 the breeding ewes were divided into three lots with the object of testing different quantities of potassium iodide supplied with salt to prevent goitre in lambs. Previous experiments showed that a control was effected by supply-iodine in the salt during the gestation period. In the 1923-24 experiment one lot received two per cent potassium iodide in the salt; a second lot received only one per cent, and the third lot was used as a check, receiving common salt containing no potassium iodide.

For several years past considerable goitre has been found among the lambs from ewes receiving no potassium iodide. However, in the spring of 1924, for some unknown reason, no goitre was found in either the treated lots or the check lot although the ewes in the check lot had never received potassium iodide. Such irregularities cannot be accounted for but further tests are being made. Many authorities believe that an immeasurably small quantity of potassium iodide will be effective where goitre exists.

ACTIVITY IN OIL FIELDS

Not in the history of the province has there been so much activity in the oil fields as is the case this season. The chief activity is in the Turner Valley Field. South of Calgary, where the first strike of oil was made in 1914, and where now there are several producing wells, one of which is the Royalite No. 4, owned by a subsidiary of the Imperial Oil Co. and which is producing over 300 barrels per day of high grade gasoline. Several new wells are being sunk in the vicinity of this well, by various companies, and the entire field has been blanketed with leases. Other activity is noted in the Coutts field south of Lethbridge where heavy gas flows have been struck in the wells already sunk, and in the Wainwright field East of Edmonton, where several wells are being put down.

THE NORTHWARD TREND
OF AGRICULTURE

An interesting commentary on of the Canadian Northland is furnished by the report of the experimental sub-station at Fort Vermilion, Alberta, for 1923. Fort Vermilion is farther north than any part of Ontario and at times the thermometer falls to more than 60 degrees below zero. The mean temperature during the crop season ranges from 6 to 10 degrees lower than during the same months at Ottawa.

Wheat seeding began at the sub-station farm on May 7th and nine varieties were sown on test

lots. At harvest they yielded at the rate of from 37 to 59 bushels per acre.

The results of the experiments with potatoes were even more remarkable. It has been found that in the northern regions early planting produces the best results. The seed was planted from May 8 to 10 and one variety yielded as high as 419 bushels per acre. Irish Cobbler, a well known variety produced 339 bushels per acre.

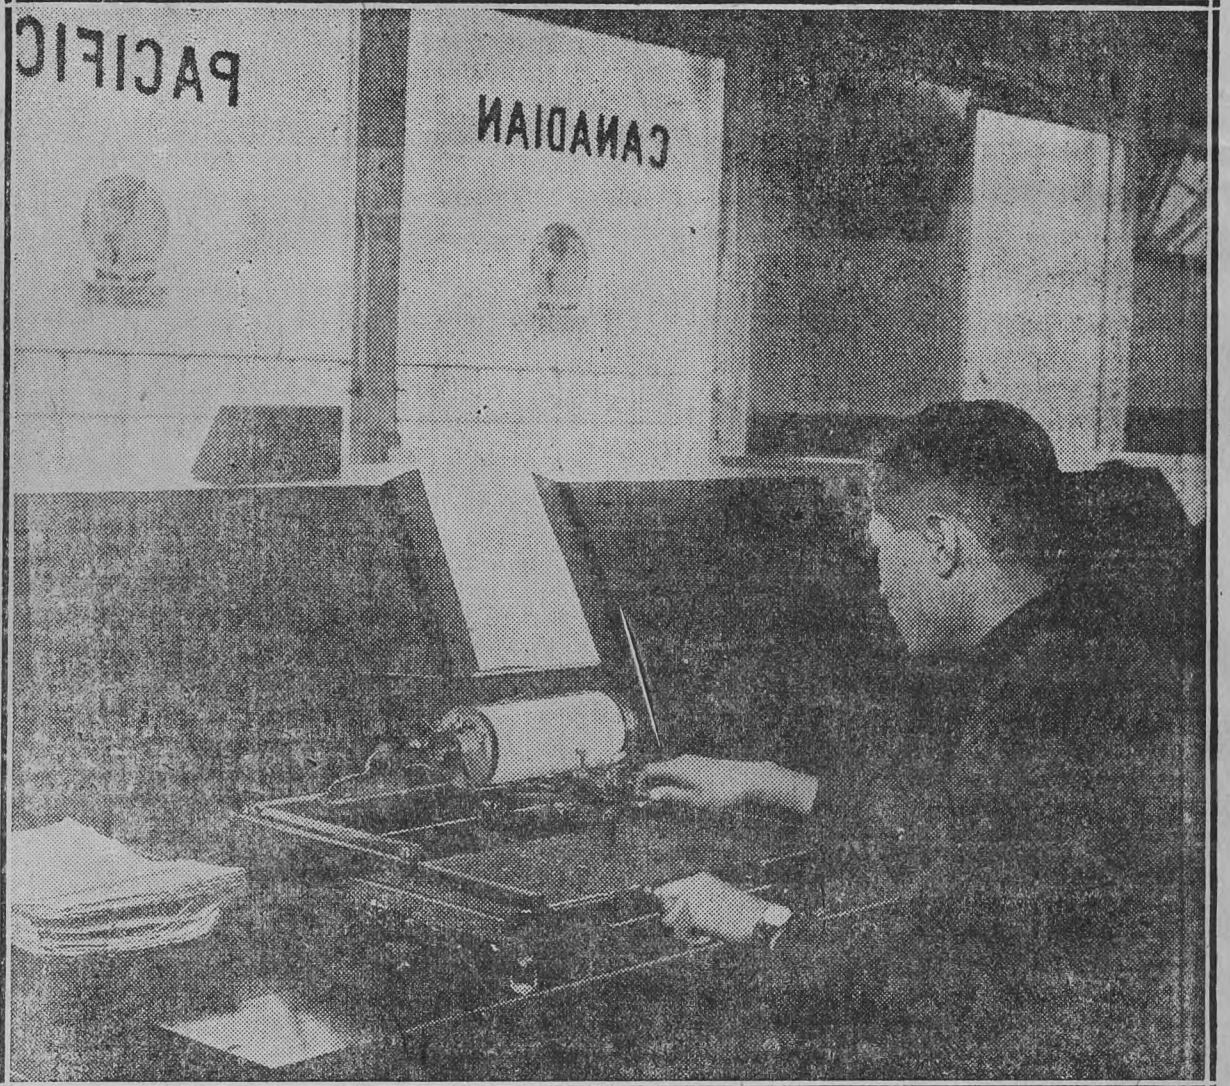

One variety of garden corn produced a fair percentage of fully matured though rather small cobs. Garden beans were quite successful, and a large number of other common vegetables produced excellent crops in a very short time. In fact the shortness of time between the dates of seeding vegetables and the dates when they are fit for use is a striking feature of growth in the north country. This rapid growth is made possible by long hours of warm sunshine.

Fine yields of sunflowers for silage were obtained, whilst the growing period was favorable for hay and a heavy crop harvested.

All these results were obtained under more favorable conditions and by better cultivation than is generally found on farms, yet they show that there is a great field for the northward extension of agriculture.

Suredeath Strychnine 85c per oz. Ask for better quotations on 20 oz's or more. We also have liquid Gopherside at 75c per can. The Chauvin Pharmacy

Type Your Laundry Tickets on This

This, ladies and gentlemen, is a picture of the only Japanese typewriter in captivity. It is known as the "Hobun" typewriter. It inhabits the offices of Shanghai, Tokio and other Oriental cities; is quite harmless but somewhat difficult to control. It is more complicated than the Theory of Relativity, runs as smoothly as a tank crossing the Rockies and makes more noise than a duet by a boiler factory and a Salvation Army band. Its function is that of typewriting the Japanese language. It was invented by an Irish mechanic named Kiota Sugimoto and was on the market in 1915. As a piece of machinery it is infinitely superior to the "typewriting Americana". The latter very seldom has more than 40

keys; the Hobun has three thousand; the Americana prints a total of 84 characters, and the Hobun nearly four thousand. Then again, anyone can operate the American variety but how many of our stenographers could run a Hobun, with its thousands of keys and hundreds of levers.

It has (as we suspected) a unique key-board arrangement. In fact, it has no key-board at all. The type is arranged face upward and serves the dual purpose of key-board and printing-type. To one side of the platen is a lever which, when depressed over the desired character, affectionately picks the character up, rubs it gently on an ink-roller and finally conveys it up to the platen on which the paper is rolled and thus, triumphantly prints the character.

We have stated that the machine is complicated but really it is simplicity itself — you merely learn the Japanese language and a few thousand of ideographic Chinese characters; familiarize yourself with the Hobun's three thousand keys, acquire mastery over its multiplicity of levers and then — go ahead and type.

The specimen shown above was captured by Canadian Pacific officials in China and now occupies much of the floor space of their office in Shanghai. The expert Chinese stenographer seated in front of it, has been known, when a rush is on, to produce as much as one whole page of neatly typed Chinese ideographs a day on his Hobun. This record has not yet been beaten.

"Does he lead an active life?"
"Very Active. The debt collectors keep him on the jump."

Sweet Clover

CLIPPING AND CUTTING SWEET CLOVER FOR HAY

By J. G. Haney, Agri. Exten. Dept., International Harvester Co.

CLIPPING AND CUTTING SWEET CLOVER FOR HAY CUT SWEET CLOVER HIGH

For feeding purposes sweet clover hay is more valuable than red clover, and almost equal to alfalfa. Sweet clover, if sown alone, early in spring on good soil may make one or two cuttings of hay the first year, depending on the amount of rain, and other conditions being favorable. It should not be cut for hay the first year until it has made a good growth, and it is well to cut rather high so that the new growth will start promptly. The last cutting should be high or before the growth has stopped, so that there would be a winter protection.

The second year the growth will start very early, and if the conditions are favorable, will be ready to cut for hay before expected—early in June. The growth is very rapid, and it soon begins to get stemmy. It should be cut when eighteen to twenty-four inches high, before the stems develop very far, which will be before any blooms appear.

The cutting of rank growth white sweet clover must be high. The new growth does not come from buds at the crown, like alfalfa or red clover, but from branches on the stems. If it is cut below these branches, the plant will be killed. The ordinary mower does not admit of being adjusted as it should be. Extensions can be put on the shoes to hold the sickle bar four to six inches from the ground, or a harvester or binder may be used. For clipping, an old harvester or header with the platform bottom knocked out, is very satisfactory. We have used the harvester, letting the hay run out in windrows to cure and gathered this with sweep rakes. When cut, the hay can be left on the ground to cure the same as alfalfa. In the humid sections the hay contains a large percentage of water, and is slow in drying. We found it somewhat more difficult to cure

than alfalfa, but if properly handled, it makes excellent hay. If rather stemmy when cut, it will make better feed if stacked green. The heating will soften the stems so that stock will eat it more readily. The grain binder is used extensively for cutting sweet clover for hay, the bundles being made rather small, and set up in long two-by-two shocks. Unless very wet, these bundles cure out nicely and can be stacked like grain bundles.

During seasons of heavy rainfall, it may be impossible to save the first cutting of hay. Where one cutting would furnish all the hay needed, the sweet clover may be clipped when a foot to eighteen inches high. The clipping should be high enough to leave live buds to start a new growth. This clipping may be left on the field, and the second growth cut for hay with a grain binder, slightly higher than the first growth was clipped. This second growth may be cut after the rainy season, so that the hay can be cured properly. The first clipping and stubble can then be plowed under, and will be of benefit to the soil.

SWEET CLOVER SEED PRODUCTION

Sweet clover is now quoted in every seed catalogue. A few years ago it could not be bought except in small packages, as only a few bee-men ever seeded it. Now it is handled by the car load. The seed has been sold in large quantities at 35c to 40c per pound, and six hundred pounds per acre in humid sections is not an unusual yield. There should be a good profit in the hulled seed at ten cents per pound.

When soil and climate are favorable, sweet clover may grow so large that it cannot be cut easily with a grain binder. If the spring is very favorable and a big growth made, it should be clipped back, or cut for hay, and the second crop allowed to seed. The cutting back, when done at the proper time, will make very little difference in the time of seed maturing, and early clipping will increase the production of seed. If a hay crop is cut rather late and the season is dry, little seed may be produced. Where seed is more desired than hay, the clipping should be early.

Seed harvested on the I. H. C. farm is handled as follows. Eight to ten pounds of scarified seed is sown per acre with Marquiss wheat, early in April, and a good stand of sweet clover always secured. This—white blossom—is clipped for hay June 10th or 15th the year following. Late clippings delay the maturing of the seed, but ordinarily by the middle of September a heavy seed crop is cut with the grain binder, with very little more trouble than a heavy grain crop. The only precaution is the addition of a long divider on the grain board to separate the interlocked clover before it is cut off by the sickle. A three-quarter inch gas pipe extended in front of the regular divider and then bent back and fastened to the outer reel support which makes a satisfactory divider. This is not usually necessary if the sweet clover is clipped at the proper time.

Yellow blossom sweet clover matures earlier, and must be clipped earlier than the white. Ordinarily the yellow does not grow so large that there is any trouble in harvesting. Under favorable conditions it may grow too large, clipping early—about twelve to eighteen inches high will increase seed production. Only the tops of the plants should be clipped off, and this may be left on the field.

Either the white or yellow blossom, clipped or cut for hay when too large is cut back so that a poor seed crop may be the result, particularly if the late summer is dry, or early frost occurs.

USE ORDINARY GRAIN BINDER

We harvest sweet clover seed with the ordinary grain binder. The bundles are allowed to fall from the machine as they will often hang together if a bundle carrier is used. The bundles are not shocked but left just as the binder drops them until dry enough to thresh. A row of bundles is then removed at intervals to allow the wagons to drive through in gathering them up at threshing time.

The threshing is done with the ordinary grain thresher, the riddles set for flax. The seed is very easily knocked off the stems, and if threshed on a hot dry day, most of the seed will be hulled. When the separator is properly adjusted, the seed may be cleaned so that it can be put through the sacrificer without being recleaned. The scarifier removes all the hulls and scratches the seed coat so that all the seed will germinate promptly.

HARVEST SWEET CLOVER WHEN SLIGHTLY GREEN

The seed does not all ripen at once, and the first to set will begin to shatter off before it is all ripe. The crop should be when the largest part of the seed has turned brown. There will be less waste in cutting when slightly green than in letting it get too ripe. When the stems get dry the seed will shatter very easily, cut if the weather is a little damp, or the cutting can be done early in the morning or late in the evening, there will not be so much waste. Since the seed shatters very easily, the crop should be handled as little as possible after it is cut. The stubble is very stiff, and the bundles light, so that they will usually dry just as the binder lets them drop, and there doubtless is less waste of seed if set up in shocks and then pulled apart again when loading. Canvas should be used on the bundle racks, as several bushels of seed per day will be saved on each wagon. Canvas should also be used under the front of the machine, as a great deal of seed is scattered in unloading, and when the feeder strikes the bundles.

VILLAGE OF CHAUVIN

NOTICE RE EARLY CLOSING BYLAW

The Village of Chauvin Council having been petitioned to enact an Early Closing Bylaw:

(1). The Council may pass a Bylaw to close certain shops affected by this petition:

The objection of any person who wishes to object to the petition upon the grounds that it is insufficiently signed, or otherwise affecting the validity or sufficiency thereof will be received by the secretary of the Village of Chauvin on or before June 13th 1925.

(2). If there are no such objections, or if after hearing any such objections, the council deems them not to be well founded, the council shall forthwith pass the closing by-law.

(3). The decision of the council as to the class of shop to the which any shop belongs for the purpose of any such early closing bylaw shall be final and conclusive.

(4). No name shall be withdrawn from any such petition after the council has given the notice required by this section.

(Signed) H. N. FREEMAN,
Secretary-Treasurer

CITIZENS PAY THEIR

FINAL TRIBUTES AT FRED BURTON FUNERAL

The undoubted popularity and respect entertained for Fred Burton who died at one of the Edmonton Hospitals on Friday the 29th day of May at the age of twenty-three years was manifest by the great crowd of friends and fellow citizens who paid their last tribute to his memory on Sunday the 31st at the Latter Day Saints Church at Ribstone. Large numbers were unable to enter the church to hear the impressive service conducted by Elder Beckley of Ribstone, who spoke of the fine qualities of the man who had passed, both in business and in private life, and referred to the part he had taken in the community affairs. In view of the large number of people who are here today it is hardly necessary for me to refer to the esteem in which he was held by the Pioneer to Ribstone with his parents in 1906 at the age of four years, the district has lost one of its old-timers.

Many an beautiful wreath were the wreaths and floral tributes massed on the casket in the church, received from the family; Ladies Aid; Ladies Auxiliary; Sunday School; L.O.L. L.O.B.A.; Young Peoples Society; and Womens Institute, and a number of floral tributes from Chauvin and Edgerton.

Following the service the funeral cortege proceeded to the Ribstone cemetery where the body was interred. The procession extended for over half a mile, and the mass of flowers at the graveside bore added testimony to the esteem in which Mr. Burton was held.

He leaves to mourn his loss his wife, father, mother, and three sisters, Mrs. Ross Dallyn, Belle, and Bessie.

Get it at Saker's for less.

LOCAL HAPPENINGS

We are informed that every congregation in the Presbyterian church has been given the privilege of sending delegates to the General Assembly at Toronto with free Transportation facilities. Our minister has been invited to attend Assembly, and the Board of Management at Chauvin has appointed Mr. A. E. Keith as delegate for this year. We wish our delegates a pleasant journey to the metropolis.

Messrs Parcels and Harris have made delivery of two road maintainers to the Municipal District of Ribstone.

The meeting of the Ribstone municipal council which was to have been held last Wednesday has been postponed to meet at the call of the reeve.

We are sorry to hear that Miss Rose Wells, of Marsden, is very ill.

Born to Mr. and Mrs. A. H. Irving, Irving, of Ribstone, at the Unity hospital, on Thursday May 28th, a son. Mother and child doing well.

Fifty pounds of coarse salt for 75c at Saker's.

"The ALASKAN"

A story of the struggle by native Alaskans against the financial powers which strove to loot the wealth of that far-away land At Chauvin next Monday, Edgerton next Tuesday.

WATCH FOR CUTWORMS AND GRASSHOPPERS

Reports have been received of damage by cutworms from some districts. A rather serious outbreak of grasshoppers is also reported from the North Country. The Department now has material and supervisors in the field with the object of checking this outbreak. Slight outbreaks are also reported from the old grasshopper areas, but it is anticipated that the damage will be very small.

The Department is investigating the whole situation with respects to pests in the Province.

SUPERVISORS FOR WEED WORK IN ALBERTA

Field supervisors for the prosecution of the Provincial Department of Agriculture's campaign against the weeds in the province have now been appointed and assigned to their respective districts. They are as follows:

1. L. E. Kindt, Tabor.
2. Geo. Ingram, Lethbridge.
3. H. T. Harris, Claresholm.
4. & 9. E. W. Brunsden, and W. W. Miller, Calgary.
5. A. P. Shittleworth Vulcan.
6. H. Philips, Brooks.
7. A. Parker, Chinook.
8. J. R. Weston, Drumheller.
10. T. H. Taylor, Lacombe.
11. L. A. Parry, Red Deer.
12. H. E. Craig, Hardisty.
13. T. Hogan, Vermilion.
14. P. Hardisty, Edmonton.
15. P. M. Ballantine, Edmonton.
16. Wesley Smith, Grande Prairie.
17. Jos. Bonner, Berwyn.

The next meeting of the Ladies Auxiliary of Westminster church will be held Wednesday after noon June 10th at Mrs. Watson's home at Killarney Lake.

ROD AND GUN IN CANADA

The June issue of Rod and Gun in Canada takes the form of a special Ontario Tourist number which includes the attractive features of a personal message to tourists from the Hon. G. Howard Ferguson, Premier of Ontario, and a special section setting

forth the attractions of Ontario to the tourist.
The month's articles are specially selected to be appropriate to the number and provide a wealth of interesting and seasonable reading for all field sportsmen. Dick the Bummer is a story of canoe travel in Northern Ontario; Dependable Penage of small mouth bass. The regular feature stories are of their usual high quality and include Caravanning. Photographing and Troutng on Nova Scotia's Brawling River by Bonnycastle Dale, The Young Mail Carriers by Martin Hunter In the departments, W. C. Motnew wrinkles for the Outdoor man; Angling Talk and Speculation is the theme for this month's Fishing Notes by Robert Page Lincoln and deals among other things with steel rods and casting Guns and Ammunition, The Trap and The Kennel are also of great interest to their devotees and others.
Rod and Gun in Canada is printed monthly by W. J. Taylor, Ltd., at Woodstock, Ont.

LOCAL HAPPENINGS

This district was again favored by showers on Saturday. The weather is just right for the growing crops, and prospects at the present are just as bright as they have been for many a year.
Another good rain fell on Tuesday. It makes all happy, and it will give the busy farmer a day's holiday—doing chores, such as mending harness, etc., etc., etc. and so on, and so on.

A troop of the "C" Squadron of the 19th Alberta Dragons engaged in machine gun practice at Chauvin rifle range last Saturday evening, under the command of Sgt. Grant Saul.

Do not fail to see "The Alaskan" next Monday night at Chauvin and Tuesday at Edgerton. It will take you right into the Canadian Rockies.

In passing, we are pleased to note that there is not much profit in following so-called weather forecasters: more especially when they forecast droughts.

There will be no services at points in the Chauvin mission field on Sundays June 7 and 14, owing to the absence of Rev. P. F. MacSween, who is delegate to the church conference in Toronto

Mr. E. A. Keith is leaving today for a trip to Toronto, his old home town. He is the delegate to the church conference.

A meeting will be held next Sunday at the Sacred Heart church, Chauvin, next Sunday, to elect committees for the St. John Baptiste celebration on June 24

The next meeting of the Edin glassie U. F. A. will be held on Thursday, June 11th. All members are requested to attend.

In order to cope with the increased business Saker's are putting extra help at their store. An even better and faster service is now assured all patrons.

Good glasses if you need them Good advice if you don't. Consult C. C. McKechnie. Graduate Optician.

Some of our Chauvin citizens have been busy looking for lost tires from their cars. They find it an engrossing form of hunting.
We are pleased to notice that those in charge of the Chauvin baseball diamond have ben busy levelling off the diamond. They are making o good job.
There s nothing new in trial marriages. According to some people every marriage is a trial.
Thirty-two dollars buys a new outing Gramophone. Folds up like a suitcase; carries 8 records uses ordinary needles and Victor or Columbia records and plays like \$100 instrument. Try a record on next time you are in the store and be convinced that this is the best \$32 worth you have seen either in the cities or in the catalogues.

U. S. CO-OPERATIVE LEADER COMING TO ALBERTA

Walton H. Peteet, one of the biggest men in the co-operative marketing movement on the American continent, is coming to Alberta for a week in June to assist in the drive for membership for the new provincial dairy, livestock and poultry pools. Mr. Peteet is general secretary of the national council of the farmers' co-operative marketing associations of the United States, and was formerly the director of co-operative marketing for the American farm bureau federation.

Mr. Peteet will make his first appearance in Lethbridge on the afternoon of Saturday, June 13th. On Monday following he will speak in Calgary, and on Tuesday, June 16th. in Red Deer. His meeting in Edmonton will be on Wednesday, June 17th, and the following day he will hold a meeting in Camrose. The organization committee are particularly gratified at securing the services of Mr. Peteet, who ranks with Sapiro, Judge Bingham and ex-Governor Lowdon of Illinois in the Co-operative movement.

Last week it was announced that W. J. Park, managing director of the Fraser Valley Milk Producers Association would come to the province for a week or so to assist in the drive. It has now been arranged that Mr. Park will appear with Mr. Peteet at his meetings at Calgary and Edmonton, and that he will also hold the following meetings.

June 13th. Rimby and Lacombe.
June 16th. Olds and Stettler
June 18th. Viking and Sedgewick
June 19th. Wainwright and Vermilion
June 20th. Leduc and Wetaskiwin

ORGANIZE FOR DRIVE

At a meeting of the directors of all three pools held on Wednesday plans were completed for the organization of the drive for membership. The seven pool divisions of the provisions of the province were divided into districts in charge who will look after the appointment of captains for the drive, arrangements for meetings, etc. The districts and directors in charge are as follows:

- No. 1 South half of territory south of the main line of the C.P.R., H. C. McDaniel, North half of this territory. S. Sears, Nanton,
- No. 2. Didsbury and Cochrane ridings, and part of Gleichen and part of Bow Valley. Norman Clarke, in charge.
- No. 2A Hand Hills and Acadia, Sutherland.
- No. 3 Red Deer, Olds and Innisfail, Nolson Smith.
- No. 3A West part of Wetaskiwin, Ponoka and Lacombe, R. A. Rhoven.
- No. 4 East part of Wetaskiwin and East part of Ponoka, and west half of Camrose, E. Rasmussen.
- No. 4A East half of Camrose and all of Sedgewick. J. Slattery.
- No. 5. East part of Lacombe, all of Coronation and Stettler: M. A. MacMillan. No. 5A. Ribstone and Wainwright. Russell Love
- No. 6. Stony Plain. Leduc and South Edmonton; D. J. Christie
- No. 6A. Lac Ste Anne. Pembina, St. Albert and part of Sturgeon; George Bevington. No. 6B. Peace River and Grande Prairie; W. F. Stevens.
- No. 7. Victoria, south half of Whitford, all of Vegreville; H. O. Bradin. No. 7A. Vermilion and Alexandria; H. H. Stearns.
- No. 7B. Part of Sturgeon and all of Beaver River and St. Paul: A. Rain.

POULTRY POOL

The poultry pool has adopted the following resolution regarding sale of eggs to local consumers:

RESOLVED that this board adopt the policy that any producer can supply any bona fide local consumer with poultry and eggs and that such producer will be released to this extent from his contract by this board.

BE IT FURTHER UNDERSTOOD that this board shall at all times be the sole judges of who bona fide local consumers will be.

LIVESTOCK ASSOCIATION SIGN UP: 900 MEMBERS

The entire membership of the Buffalo Lake Live Stock Shipping Association has signed up with the new provincial livestock pool, following the visit paid to them by A. B. Claypool, chairman of the joint organization committee of the three pools, and of the livestock pool. The membership will bring 900 members into the pool, with an annual shipment of some 300 cars of live stock.

POOL MEETINGS

Posters advertising the various meetings which will be held throughout the province during the membership drive are now being printed. There will be more than 400 meetings covering all the districts in the province.

CANADIAN NATIONAL
RAILWAYS

FOURTH ANNUAL TOUR TO THE PACIFIC COAST

Special Train From Winnipeg
via Canadian National Railways
Entertainment Provided for
at Various Points of In-
terest En Route

PERSONALLY CONDUCTED

Personally conducted tours offer the best opportunity for familiarizing oneself with the country traversed. This applies to our own country as well as to the older settled countries of Europe. Canadian National Railways has, for many years, commencing immediately after the close of school for the summer holidays, conducted special parties to the Pacific Coast via Prince Rupert. The tour this year which will be the fourth will again commence at Winnipeg from which point a special train of modern sleeping car equipment, dining car and radio observation car will leave July 6th. After stopping at various places of interest, the train will arrive at Prince Rupert on July 11th. At this later point, the party will embark on a palatial steamship for a cruise of 550 miles through the famous "Inside Passage" to Vancouver. While the tour terminates at Vancouver, those who desire to make a trip to Victoria, may have their tickets read "Victoria" as their destination without any additional cost.

This tour is an outing that appeals strongly to teachers as well as to professional men, and business men and women.

The local agent of the Canadian National Railways will be pleased to give you full particulars of this tour, including the cost, choice of routes returning etc.

SWEET CLOVER

(Continued from page three)

SWEET CLOVER SCARIFIER

Half to two-thirds of ordinary sweet clover seed is so hard that it will not germinate quickly—some seed may lie in moist soil for weeks before water penetrates the seed coat and causes it to sprout. The scarifier scratches or cracks the seed coat so that all the seed germinates at once.

The Ames Scarifier was developed by Professor Hughes at the Iowa Agricultural College, Ames, Iowa. The seed is fed into a blower which blows it through the circular tube, the back of which is lined with sand-paper. When the seed strikes the sand-paper, the hull is knocked off, and the seed coat is cracked or scratched. Scarifying is not so important if the seed is sown for pasture, but if sown in the rotation for hay and seed crop, it should be scarified. We built a scarifier at a cost of less than \$10.00. This is attached to the blower of a silage cutter, and does an excellent job. We will be glad to furnish details as to building this scarifier.

SPECIAL COMMITTEE ON TUBERCULOSIS

One of the most important steps yet taken in the study of bovine tuberculosis, was announced during the past week, by Dr. H. M. Tory, Chairman of the Research Council for Canada, in the appointment of a special committee to conduct research work in tuberculosis as it affects cattle.

This announcement will be most gratifying to the people of Alberta, since it forecasts Dominion-wide action along the lines on which the Alberta Department of Agriculture and Alberta University authorities have been working for some months. In August 1924, Hon. Geo. Hoadley with the support of Dr. Tory, named a research committee for the purpose of studying the matter of tuberculosis in cattle and its transmission to human beings. This committee included prominent medical men of the province and the provincial veterinarian. This committee has already done considerable work at the provincial institute at Ponoka. Still later, the provincial department secured from France samples of the Calmette culture which has been used with such gratifying success in the inoculation of herds in the Old Country. This culture is now being developed at the University of Alberta and experiments are already under way with two of the provincial government herds, and will be undertaken with a large number of cattle on other farms. The department and university authorities are also conducting experiments with Dr. Nathan Raw's vaccine on two more of the government herds.

The contention of prominent Alberta beef cattle men, has been that the present wasteful and unscientific method of destroying beef cattle following the T. B. test, can be obviated with the use of properly proved vaccine, and have been urging for some time, with the support of the Alberta Department of Agriculture, that research work along these lines be carried on by the Dominion Government. The announcement of the appointment of the special Dominion committee by Dr. Tory and Dr. Grisdale of Ottawa, and includes prominent medical and veterinary men from all provinces with the provincial veterinarian, and Dr. Rankin of the Alberta College of Medicine, representing this province.

The average man's idea of a business transaction is one in which he gets the best of the bargain.

EGG PRESERVATIVES

(Experimental Farm Note)

CHEAP EGGS IN WINTER

Many families, even of farmers and other poultry keepers, have very few eggs to use from October to February, when prices are high. It would be easy for them to preserve and store as many as required, if they would but take the trouble to do so.

EXPERIMENT AT CAP ROUGE

In order to secure information regarding the best methods of preserving eggs, an experiment was started in 1916 at the Cap Rouge Experimental Station.

Eight methods were tested:—

1. Wrapping in paper and leaving undisturbed.
2. Wrapping in paper and turning daily
3. Packing in Straw
4. Packing in sawdust
5. Compose Gaulin
6. Armstrong paste
7. Lime water.
8. Waterglass

RESULTS

It was found that the two best methods by far, were the lime water and the waterglass. These have been continued to date and very little difference has been found, though different lots of eggs are tested each year by the Dominion Chemist and the Dominion Husbandman, at Ottawa,

and by the superintendent of the Cap Rouge experimental station.

BEST METHODS

Use one pound of good, freshly burnt quicklime to five gallons of water. Slake the lime with a small quantity of water. Just enough to cover it, and then stir the milk thus formed into the water. Keep well stirred for a few hours, allow to settle, and pour the saturated water over the eggs. With waterglass, use about four pounds in about ten gallons of water.

GENERAL ADVICE

All eggs used should be perfectly fresh, and, if possible, from flocks having no male birds. The eggs should be completely immersed during the whole period of preservation, and the vessel should be kept covered. The best temperature, though not absolutely necessary, is from 40 to 45 degrees, F. Gus. Langelier, superintendent, Experimental Station, Cap Rouge, Que.

INVESTIGATE

PAPER MAKING

John Bacho-Wiig, inventor of a process for making paper out of straw is to visit the province next week, for the purpose of investigating the possibilities of making paper from the straw from Alberta's grain fields. For some time experiments have been carried on along this line, as a result of the effort of the provincial trade commissioner's office and some very fine samples of paper have been produced. The inventor is to advise on the best location in the province for the establishment of an industry.

Enough to share with loveless folk

JASPER PARK LODGE TO STOP AT

THE TRIANGLE TOUR

The finest combination rail and ocean trip on the continent. It embraces a rail journey westward from Mt. Robson Park to Prince Rupert.

Side Trip To Alaska May Be Included
Southward to Vancouver, a distance of 550 miles, on palatial ocean-going steamships. Leaving Vancouver by rail, the third leg of the triangle extends northward through the Valley of the Fraser and Thompson to Jasper National Park.

CANADIAN NATIONAL RAILWAYS

SCHOOL FAIR WILL BE HELD AT MARSDEN FRIDAY, AUGUST 21

The Manitou Lake School Exhibition Association is making active progress with its arrangements to hold the school fair at Marsden, Friday, August 21st. The revised prize list has been prepared, and is now in the printer's hands. The committee acknowledge with thanks a grant of \$100 by the Rural Municipality of Manitou Lake. A challenge shield is also offered by the municipality; also a cup donated by R. C. Bruce.

Our idea of an unpopular man is one with a fad for collecting bills.

NOTICE OF IMPOUNDMENT

Stray Animals Act, Rural Municipality of Manitou Lake. No. 442.

Notice is hereby given that the following animals were impounded on the premises of Frank F. Wright N.W. 1/4 24-43-28-w3rd Artland, (Sask.

One black mare, white strip on face, hind legs white, right fore foot white. Weight about 1500 lbs. No visible brand.

One bay mare, white stripe on face. Weight about 1250 lbs. No visible brand.

One bay mare, white stripe on face, hind legs white, right fore foot white, weight about 1250 lbs. No visible brand.

One light bay stallion, about 2 years old, white stripe on face, four legs white weight about 800 lbs. No visible brand.

Dated at Artland this 26th day of May 1925,

1/4 FRANK F. WRIGHT,
Poundkeeper.

Thomas Meighan, James Curwood, and Herbert Brenon! Can't you imagine what kind of a picture this unbeatable trio has turned out in "The Alaskan!", with the added attraction of the majestic Canadian Rockies for scenery. At Chauvin next Monday and Edgerton next Tuesday.

LOCAL HAPPENINGS

Mr. John Murray has purchased a new Chevrolet from I. E. Collette.

BORN to Mr. and Mrs. V. Mew Sunday, May 24th a daughter.

Mr. and Mrs. Fred Wright of Artland were visitors to Chauvin Monday.

Mr. and Mrs. Gordon Knox of Bull Creek, left on Sunday May 26th for Fort George, B.C.

The pupils of Bull Creek school held a picnic at Killarney Lake last week. Bathing, Boating and other sports helped to make a very pleasant afternoon, and all appreciated the lunch augmented with lemonade and the ever popular ice cream.

Miss McKay, of Wetaskiwin, is visiting her sister at Ribstone.

Mr. G. P. McLeod, of Toronto, of the Presbyterian mission of Ribstone, arrived Saturday May 23rd.

With the object of gathering in funds for the Sacred Heart Church, Chauvin, a popularity contest is to be held. The result of the contest will be made public after its last day, June 24th.

The next regular meeting of the Ribstone W. I. will be held in the Municipal Hall on Saturday June 6th.

Don't forget Airlie picnic and dance on June 17th. Keep this date open and come and have a good time.

Messrs Harris Bros. of Prosperity, have invested in a new Studebaker car.

Some up-to-date farmers in the Prosperity district have been seen taking an alarm clock out to the fields to tell them when to quit work. Mind you they start on time, too.

Crops in the Dina district are looking better than for years past. There are present indications of a bumper crop.

Mrs. J. King, of Mundare, is visiting her parents, Lt-Col. and Mrs. W. Rodden. Mr. King is now taking a trip to Ireland.

Mr. Guy Smith returned to Winnipeg, Sunday after visiting his father.

At last—Thomas Meighan in an out-door picture redolent of the pines and great open spaces See "The Alaskan" next Monday at Chauvin and Tuesday at Edgerton.

Emil Guilbault met with a very painful accident last Thursday. Whilst riding he was thrown by his horse which fell and rolled on him, injuring his ankle severely.

Begins to look like the, old and prosperous times. Messrs Percels and Harris unloaded a carload of Ford cars Monday last.

Cameraas and Kodaks from \$1.50 up to \$20.00 Same price in Chauvin as in Toronto, even if Toronto is slightly the larger town.

The Chauvin Pharmacy

"When I go out with my chum I do all the paying."
"Yes, he must be a very close friend of yours."

Wise is he who knows when not to be patient.
